

AIR CONDITIONING, HEATING & REFRIGERATION GLOBAL REPRESENTATION

PROFESSIONAL • EXPERIENCED • CUSTOMER FOCUSED.

SpacePak is the original small duct air distribution system and has been successfully conditioning homes through its unique energy efficient process for over 40 years. The many benefits of SpacePak include:

- Installation without major remodeling.
- High efficiency cooling while removing 30% more humidity.
- Whisper quiet operation.
- Space-saving aesthetically pleasing installation.
- Application flexibility – install outlets virtually anywhere.

Solstice Series Air-to-Water Heat Pumps

SpacePak's Solstice series are true air-to-water heat pumps that can alternate between heating and cooling, providing your family with an all-in-one home comfort solution.

Standard Features

- Simple Piping & Plumbing.
- Installation & Service Friendly.
- Easily Zoned.
- Green Hydrogen Energy.

Behr refrigerants

- The most economical retrofit R22 refrigerant choice.
- Wide application range (low, medium, and high temperatures).
- EPA SNAP listed & AHRI approved.
- Non-ozone depleting, Non-toxic, Non-Flammable.
- R-22 operating pressures.
- Greater capacity than R-417A, R-422B, R-438A, and R-407C.
- ASHRAE R-461A.
- EPA SNAP listed & AHRI approved.
- ASHRAE Safety Classification A1.1v

Flo Fab

- Universal 10 position Vertical or horizontal pumps with removable impeller.
- Vertical in-line Centrifugal pumps.
- Compact in-line Centrifugal pumps.
- In-line circulator pumps.
- Plate & frame heat exchangers.
- Cooling packages.
- Glycol systems.

Versatile and affordable Eubank Wall Mount Air Conditioners and Heat Pumps.

- Residential and commercial applications.
- Telecommunication shelters.
- School classrooms.
- Modular offices.
- Equipment data shelters.
- On time delivery.
- USA made.

Lifebreath

Residential and commercial Energy Recovery Ventilators (ERVs) are the best choice for ventilating your home or workplace. These units are designed to provide fresh air into the building while exhausting an equal amount of stale air to the outside. Energy including moisture is transferred between the airstreams reducing the loads on the heating and cooling equipment while delivering the air comfortably and quietly into the space.

- Residential Ventilation ERV Units.
- Commercial ERV Units.
- HEPA Air Cleaning.

GPS is "Always Innovating, never imitating!"

Global Plasma Solutions (GPS) is the pioneer in needlepoint bi-polar ionization cold plasma technology.

- Residential, commercial and industrial HVAC applications.
- Kills Mold, Bacteria & Virus.
- Reduces VOCs & Odors.
- Reduces Particles.
- Reduces Allergens.
- Works in Air & on Surfaces.
- Over 100,000 Installations.
- Byproduct Free – 0.00PPM Ozone.
- 3rd Party Tested by CDC Elite Rated Labs.

AllStyle Coil Company, L.P. so much more than a coil company

- Residential & commercial Coils (cased & uncased).
- Dx & chilled water ceiling fan coils (cased & uncased).
- Horizontal & Vertical Air Handlers (dx & chilled water).
- Multi position air handlers.
- 14 seer condensing units.

WE HELP YOU DELIVER THE PROFESSIONAL RESULTS YOUR CUSTOMERS EXPECT.

ISO LINE SETS:

Better copper means less kinks, secure flares, fewer call-backs. Better insulation means superior system performance and faster, easier set ups.

NICE™ DUCT SYSTEM:

We are proud to supply a full range of mounting accessories that supports the HVAC professional through every installation.

CONDENSATE REMOVAL PUMPS:

Designed and manufactured in Switzerland, our condensate pumps offer simplicity, reliability and flexibility for a wide variety of HVAC applications.
